

# Recherche : Rechercher un acteur ou une action sur le plan de travail

## Starting point

- Your project comprises **players**, **basic actions**, **advanced actions** or **conditional actions**.
- You are in the **Create** overview window.  
Screenshot Create

## Procedure

1. At the bottom left in the **search box** in the selection bar, type (part of) the name of the player or action you are looking for.  
Result:  
The search results appear above the search box.  
Screenshot search tool
2. In the search results, click on the player or action you are looking for.  
Result:  
The player or action is marked in the drawing area and the pane with more details about the player or action appears.
